RICHARD W. WIEKING
CLERK, U.S. DISTRICT COURT
NORTHERN DISTRICT OF CALIFORNIA

**Plaintiff Chris Walters Motion For Reconsideration
To Comply With ORDER Of Court**

NOW COMES THE Plaintiff Pro Se Chris Walters before the Honorable US District Court in Northern District of California et al to move to answer the ORDER(s) of the Court apparently issued in March, 2008 while Chris Walters was on leave of absence which were finally delivered on Saturday, April 5th, 2008 to wit:

1. **Exhibit A:** The Orders of the Court and other documents are being obstructed from delivery by AIM mail center in probable violation of Title 18 USC 402 **Contempt.**
2. **Citation of Authority:** By chance and circumstance Chris Walters Motion to Withdraw Complaint was filed April 4th, 2008 in good faith and without the knowledge or access to the previous Court ORDERS and did not disregard the instructions of the court out of malice nor disrespect.
3. It appears the Court has explained that while it is a requirement that Chris Walters report possible violations of Title 18 USC 402 Contempt the enforcement of violations

of Title 18 CRIMES is a matter of discretion.

4. Certainly common sense would dictate that given the number of possible prosecutable offenses at any time; the limitations of time, money, and prosecuting personnel that enforcement of such statutes as Title 18 USC 402 Contempt; Title 18 USC 242 Deprivation of rights under color of law.... and other matters such as interception of the US Mail are not always enforceable.
5. Exhibit B: Given the limits of resources and personnel of the Judicial Branch Chris Walters was able to facilitate a request last year for a National Security Death Warrant to several Congressional Committees under the US Patriot Act where Judge John Doe lacked any Jurisdictional standing to seize and obstruct an ORDER of the US District Court and would be regarded as being engaged in a subversive or terrorist activity.

Discussion On the Merits Of National Security Death Warrants

Knowing the limitations of the Judicial Branch of government and the ORDER and Finding of the Court why would a private citizen request a relief from the courts for a person who is:

1. Obstructing US District Court ORDERS or legal process.
2. Mere federal employees are attempting to over rule a US District Court Judge or impersonate ; or usurp the powers of US Circuit Court of Appeals.
3. Engaged in an extensive conspiracy to deny a private citizen medical treatment.
4. Holding secret hearings in violation of the due process and equal protection of the law?
5. Engaged in other serious violations of law.

Wouldn't jurisprudence and the US Patriot Act find a simpler resolution by simply bringing the matters to the attention of the several Chairmen of the Congressional Committees and suggesting the execution of the "terrorist" or subversive party and avoid undue embarrassment to the government?

Question of National Security Death Warrant In USDC New Mexico

Dear Friend:

I wanted to drop by and explain why I recently asked several Congressional Committees and other officials to authorize a National Security Death Warrant for a John Doe in the United States District Court in the District Court of New Mexico. My name is Chris Walters and I am Plaintiff of record in a civil action Walters V McMahon/SSA #07-257 where the Honorable Judge Judith C Hererra is presiding and the Court and Social Security Commissioner have done an excellent job of adjudicating the complex questions. We have also seen the untimely and unlawful appearance of a person known as John Doe who is actively seizing Plaintiff's mail; registered US Mail; and more recently the ORDER of the USDC Docket #20 5/22/2007:

1. Exhibit A is Notice to pick up UPS package which is a registered mail from Vision Optical to Chris Walters at his UPS address dated Saturday May 19, 2007 which has not apparently been seen or heard from in 2 months although it's actual travel distance is 1 1/2 miles across Las Cruces, New Mexico
2. Statement of Fact: Chris Walters wrote a letter to the UPS Store where the mail is received in early June, 2007 and several weeks later the owner of the mail service admits he has not forwarded Chris Walters mail and states he is currently holding it as is also cited in Docket 19 concerning routine theft and pilferage of Chris Walters mail.
3. Exhibit B: is one of several receipts to Congressional Committees recommending the authorization for the execution of John Doe

Discussion On Merits of Execution of John Doe

Chris Walters is supposed to be trying to locate a permanent place of residence on behalf of the Social Security Administration and will have to stop what he is doing and travel 1,200 miles to Las Cruces, New Mexico and spend a large portion of his monthly check on transportation to pick up his mail. More money will be spent faxing copies of this document to many members of Congress asking John Doe a non party to be whacked for tampering with a US District Court action where he or she is not a named party of interest. While the theft and extreme delays in delivery

of the US Mail in the Las Cruces area is legendary and the frequent topic of newspaper and television commentaries the history of the SSA claim shows a history of organized theft of official documents from several Courts who have heard this cause over a decade. Given the evidence and circumstances it is believed that John Doe might be a sitting US District Court Judge or Magistrate in the Western District of Texas who has for years authorized theft of official documents to prevent appeals. For the purposes of this action Chris Walters has suggested that John Doe is engaged in what should be considered a "terrorist activity" and subject to summary execution pursuant to the US Patriot Act:
